Remembering
A Loved One ...

Memorial Bricks in
The Healing Garden at
The Healing Hearts Center

Remembering loved ones ...

Memorial bricks honor loved ones and are a beautiful addition to your garden, or our Healing Garden located at The Healing Hearts Center on Stadley Rough Road in Danbury. The garden, designed by landscape architect Jane Didona, is a special place where children and adults can find comfort in nature.

Your memorial brick honors your loved one and the money raised helps Regional Hospice provide compassionate support for those in our community who are grieving the loss of a loved one. The Healing Hearts Center for Grieving Children & Families was created specifically to help adults and children with their grief and to support them as they rebuild their lives.

It's a wonderful opportunity to remember a loved one and help grieving children and families.

Your memorial brick donation will support three important programs offered at The Healing Hearts Center:

The Healing Hearts Children's Program

Children grieve differently than adults. Regional Hospice designed this program to meet their unique needs. We offer support groups for children ages 4 to 18 that focus on using play to express feelings about loss. While the children meet in their groups, a concurrent group for parents and caregivers addresses the challenges of raising children while the family is grieving.

The Healing Hearts Adult Program

Our professionally facilitated bereavement support groups offer compassionate support for families of Regional Hospice patients and the community at large. Grieving adults can participate in ongoing and short-term town-based groups.

The Healing Hearts Town Program

To help overcome the emptiness that often comes with grief, our coalition of volunteers, interfaith partners and local community organizations reaches out to people in their community. Together with others from their town, we help people find support, establish new relationships, discover new identities, and achieve independence after loss.

Regional Hospice helps families with any stage of end-of-life care. Our Caring Continuum — CARES at Home, Hospice and Healing Hearts — offers the right care at the right time. For nearly 25 years we have been building relationships and partnerships in the communities we serve in order to fulfill our goal of providing the best care for patients and families. The result — patients have improved quality of life, reduced pain and fewer symptoms. Families get peace of mind from the Regional Hospice team who help manage the stress of caring for a seriously ill loved one. Those who are grieving find the support they need to heal and rebuild their lives.
